## VOLUNTEER

**ART SOUTERRAIN** is a non-profit organization striving to challenge the way contemporary artistic practices are viewed and understood by the general public. As a unique festival in North America, we exhibit works of art in Montreal's underground city and hope to foster and to enrich this often under-appreciated cultural heritage site. We wish to widen the public's understanding of the art world and to encourage them to be involved with artists, institutions, broadcasters and specialized media. The festival aims to always offer more to our artists, our platforms and our public.

Art Souterrain is seeking **CULTURAL MEDIATORS**  
who will be present on our opening night during  
Montreal's Nuit Blanche, **the 4<sup>th</sup> of March 2017 from**  
**6 pm to 1 am**, for this year's theme : **Play &**  
**Distraction.**

The volunteer will present, in English and in French, one of the pieces of art displayed in the underground path of Art Souterrain. After meeting with the artist and researching the artwork, the mediator will aim to convey essential details and a thorough interpretation of the artist's creation to ease the public's understanding of the artistic gesture.

If you enjoy discussing with others your interest in contemporary art, gaining new practical experiences, or you simply want to get involved in a large Montreal event, please contact us at [s.short@artsouterrain.com](mailto:s.short@artsouterrain.com) no later than January 20<sup>th</sup> 2017.
